

Statement of Qualification

6K SWPPP, L.L.C. is an Arizona based company that specializes in providing cost-effective project regulatory compliance, training and Stormwater Pollution Prevention Plan (“SWPPP”) services that facilitate the regulatory process and lower project risk. 6K SWPPP works hard to stay in touch with regulatory changes so you can focus on your core business with peace of mind.

6K SWPPP is part of the 6K Family of Companies (“6K”), which were established in 2004 by Carl Bloomfield, P.E. 6K focuses on the various aspects associated with land development, including: regulatory compliance, due diligence, entitlement, project management, and engineering. Our involvement with the different phases of land development ensures clients that we understand all the details and items that go into having a successful project. 6K has been involved on various projects ranging from 1 acre to 4,000 acres in size, providing valuable services and insight to our clients.

6K SWPPP is committed to being a leader in the industry and has provided value driven services to residential home builders and developers. 6K SWPPP has created SWPPP programs and has provided employee training on regulatory compliance issues. Our services include: Stormwater Pollution Prevention Plans and erosion control (Section 402), Notice of Intent (“NOI”) filing, SWPPP inspections, training seminars, dust control compliance measures, dust control permit assistance and wetland and associated services (Section 404). We are members of IECA, an internationally recognized erosion and sediment control organization, and attend seminars to stay abreast of current news and regulatory standards for the western area of the U.S., though primarily in the Phoenix metropolitan area.

6K SWPPP has over 25 years of experience in regulatory compliance and land development. 6K SWPPP has employed a staff that is familiar and experienced in the services that we offer. Our abilities and skills can help solve your environmental regulatory needs and keep your project in compliance. The SWPPP program in Arizona has become a “legal” emphasis of the state permitting program. It is the goal of 6K SWPPP to work with clients to create a specific program for compliance in the arid west and southwest.
